

Power Saving Closed Circuit Cooling System Low Maintenance

Our Product Introduction

for more products please visit us on melt-furnaces.com

Basic Information

- Place of Origin: China
- Brand Name: Huarui
- Certification: patent; national testing report; quality management system
- Model Number: to be customized
- Minimum Order Quantity: 1 set
- Price: to be negotiated
- Packaging Details: waterproof
- Delivery Time: 30~45 days
- Payment Terms: T/T; L/C
- Supply Ability: 1000000 sets/ year

Product Specification

- Efficiency: High
- Maintenance: Low
- Advantage: High Power Saving
- Warranty: 12 Months
- Noise Level: Low
- Water Consumption: Low
- Durability: High
- Highlight: customized closed Circuit Cooling System, closed Circuit Cooling System Low Maintenance

Product Description

Product Description:

Water circulates continuously in the coils of a closed cooling tower; heat energy is absorbed by the walls of the coils, and then discharged via the fan situated at the top of the tower. When the temperature of circulating water within the coils rises to exceed the set temperature, the spray system is automatically activated. Water sprays onto the hot, damp coils and creates a thin film, absorbing the heat of the coils, and then evaporating into steam. This steam then flows away with the air, leaving behind water droplets that collect in the tower's collection tank before being recycled.

The coil-contained water circulation is a closed loop, with minimal consumption, and the spray water usage is low too.

Features:

Adopting the latest technology and cutting-edge design, our products are characterized by low water consumption, high cooling efficiency, small covering area, compact structure, and zero scale depositing in the cooling system. In addition, it won't bring any pollution to the environment.

All these features combined make our products an ideal choice for energy-saving and highly efficient cooling. With comprehensive service and premium quality, customers can feel assured of buying our products.

Feature	Description
Maintenance	Low
Water Consumption	Low
Noise Level	Low
Advantage	High Power Saving
Warranty	12 Months
Durability	High
Efficiency	High

Applications:

Huarui closed cooling tower provides an efficient and reliable cooling solution for induction furnace and induction melting furnace which requires high power supply. The cooling tower is designed with a patent, verified by national testing report and certified by quality management system. The minimum order quantity is one set with a price to be negotiated. The delivery time is usually between 30 to 45 days and payment can be made through T/T and L/C. Huarui closed cooling tower is highly efficient and durable with low water consumption and low maintenance cost, providing a high power saving. With the capability of producing up to 1000000 sets per year, Huarui cooling tower is the optimal choice for your cooling requirements.

Customization:

Customized Closed Cooling Tower

Brand Name: Huarui

Model Number: to be customized

Place of Origin: China

Certification: patent; national testing report; quality management system

Minimum Order Quantity: 1 set

Price: to be negotiated

Packaging Details: waterproof

Delivery Time: 30~45 days

Payment Terms: T/T; L/C

Supply Ability: 1000000 sets/ year

Noise Level : Low

Durability : High

Water Consumption : Low

Efficiency : High

Advantage : High Power Saving

Our Closed Cooling Tower is designed especially for chiller for power supply cabinet, power supply cooling tower and chiller for power supply cabinet. It is durable and low water consumption with high efficiency and power saving. With the low noise level, it is perfect for both business and residential use.

Support and Services:

Closed Cooling Tower Technical Support and Service

We provide comprehensive technical support and service for our Closed Cooling Tower products. Our team of experienced engineers and technicians are available to provide you with the following services:

Design and installation support

Troubleshooting and repair services

Preventative maintenance services

Replacement parts and accessories

Warranty coverage

If you have any questions or need any assistance related to our Closed Cooling Tower products, please contact us at any time.
