

Industrial Closed Cooling Tower High Efficiency Low Noise

Our Product Introduction

for more products please visit us on melt-furnaces.com

Basic Information

- Place of Origin: China
- Brand Name: Huarui
- Certification: patent; national testing report; quality management system
- Model Number: to be customized
- Minimum Order Quantity: 1 set
- Price: to be negotiated
- Packaging Details: waterproof
- Delivery Time: 30~45 days
- Payment Terms: T/T; L/C
- Supply Ability: 1000000 sets/ year

Product Specification

- Water Consumption: Low
- Efficiency: High
- Durability: High
- Maintenance: Low
- Advantage: High Power Saving
- Warranty: 12 Months
- Noise Level: Low
- Highlight: Industrial Closed Cooling Tower,
High Efficiency Closed Cooling Tower

Product Description

Product Description:

Water is circulated in the coils of a closed cooling tower. As the fluid heats up, its heat is absorbed by the walls of the coils. A fan on top of the tower then releases the heat that has been absorbed.

When the temperature in the coils exceeds a certain degree, the spray system will be automatically activated. At this point, water is sprayed onto the wall of the hot coils, creating a water film. The film absorbs the heat from the coils and vaporises, the vapor then being released into the air. The remaining water droplets fall into the collection tank to be re-used.

Water circulates in a closed loop with minimal consumption, and the use of spray water is also kept to a minimum, promoting energy-saving and environmental protection.

Features:

Using this product offers numerous benefits, such as **low water consumption** and **high cooling efficiency**, providing incredible convenience and cost savings. This model also has the advantage of **small covering area**, with a **compact structure**, and **no scale deposit inside the cooling system**, ensuring a long service life. On top of all that, this model is environmentally friendly as it creates **no environmental contamination**.

Parameter	Value
Durability	High
Noise Level	Low
Maintenance	Low
Efficiency	High
Advantage	High Power Saving
Water Consumption	Low
Warranty	12 Months

Applications:

The Huarui Closed Cooling Tower is designed to provide a reliable and efficient cooling solution for power supply and induction furnace. With a high durability, low maintenance, low water consumption and low noise level, it is perfect for the heavy duty operations of factories and industrial facilities. The tower is certified with patent, national testing report and quality management system, ensuring the highest standard of quality. The minimum order quantity is 1 set and the price is to be negotiated. The tower is waterproof and the delivery time is 30~45 days. Acceptable payment terms include T/T and L/C. With an annual supply ability of 1000000 sets, Huarui Closed Cooling Tower is highly dependable and reliable. A 12-month warranty is also available for this product.

Customization:

Closed Cooling Tower

Brand Name: Huarui

Model Number: Customizable

Place of Origin: China

Certification: Patent; National Testing Report; Quality Management System

Minimum Order Quantity: 1 Set

Price: Negotiable

Packaging Details: Waterproof

Delivery Time: 30~45 Days

Payment Terms: T/T; L/C

Supply Ability: 1000000 Sets/ Year

Maintenance: Low

Advantage: High Power Saving

Efficiency: High

Warranty: 12 Months

Durability: High

Uses: Cooling Tower for Power Supply, Chiller for Power Supply Cabinet

Support and Services:

Closed Cooling Tower Technical Support and Services

Our Closed Cooling Tower offers a wide range of technical support and services to ensure the best performance and reliability for your cooling system. We provide the following services:

Design optimization and troubleshooting

Installation and commissioning

Preventive maintenance

Spare parts supply

Repair and overhaul

Remote monitoring and diagnostics

Training and technical support

We are dedicated to providing you with the highest quality technical support and services. Contact us today to find out how we can help you maximize the efficiency and reliability of your cooling system.
