

Induction Iron Melting Furnace Energy Saving Medium Frequency High Durability

Our Product Introduction

for more products please visit us on melt-furnaces.com

Basic Information

- Place of Origin: China
- Brand Name: Huarui
- Certification: patent; national test report; quality management system
- Model Number: to be customized
- Minimum Order Quantity: 1 set
- Price: to be negotiated
- Packaging Details: waterproof
- Delivery Time: 30~45 days
- Payment Terms: T/T; L/C
- Supply Ability: 1000000 sets/year

Product Specification

- Safety: High
- Reliability: High
- Durability: High
- Failure: Low
- Maintenance: Low
- Power Saving: High
- Highlight: Medium Frequency Iron Melting Furnace, Energy Saving Iron Melting Furnace, steel induction furnace

Product Description

Product Description:

If you are looking for a kind of good quality induction furnace system from China, we are confident that our Medium Frequency iron melting furnace is an ideal choice for metal melting applications due to its low maintenance, high safety, high durability, high power saving and low failure rate. It is designed to be robust and reliable, and is a great choice for a wide range of metal melting processes. The furnace is equipped with advanced safety features to ensure safe operation and prevent accidents. It is also designed to be energy efficient, saving you money in the long running process. The furnace is built to be long-lasting with a high durability and a low failure rate, making it best choice for you. With its low maintenance requirements, you can be sure that your furnace will remain in top condition and provide you with reliable service for years.

Features:

Medium Frequency type iron melting furnace

Low failure rate

High power saving

High safety

High reliability

High durability

Low Noise

Clean working environment

Technical Parameters:

Iron melting furnace power supply, thyristor type serial-connected resonance medium frequency type, (3 tons), as for other data of other capacity (tons), please check other pages in our this website.

Characteristic	Description
Type	GW3.0-2000-0.3S
Rated capacity (T)	3.0
Rated power (KW)	2000
rated frequency (HZ)	300
power supply (V)	575x2
inlet current (A)	1000x2
medium frequency voltage (V)	2800
load type	One power supply cabinet drives one induction furnace
adapted transformer (KVA)	2000

Applications:

Medium Frequency Iron Melting Furnace produced by Huarui with a renowned brand in China has a Model Number that can be customized. It is certified by patent, national test report and quality management system, and its minimum order Quantity is 1 set. The Price is to be negotiated, and the product is packaged in a waterproof manner. The delivery time is 30~45 days, and the accepted payment terms are T/T or L/C. Huarui is capable of producing iron melting furnaces with output 1000000 sets/year

Customization:

Iron Melting Furnace is a new type of Medium Frequency iron melting furnace with high safety, reliability, durability and power saving, and low maintenance rate. The brand name is Huarui. It is made in China and has passed patent, national test report and quality management system. The model is customizable and the minimum order quantity is 1 set. The price is to be negotiated and the packaging is waterproof. The delivery time is 30~45 days, and payment terms can be T/T and L/C. The supply ability is 1000000 sets/year.

Support and Services:

Iron Melting Furnace offers technical support and services to meet the needs of our customers. Our team of experts are available to answer any questions and provide guidance on how to use the product properly. We also provide repair services if the product should become damaged or if it has any malfunction. We strive to make sure our customers are satisfied with their purchase and we are happy to assist you in any way as far as possible.
