

## Low Failure Steel Metal Furnace Low Maintenance Power Saving

### Our Product Introduction

for more products please visit us on [melt-furnaces.com](http://melt-furnaces.com)

#### Basic Information

- Place of Origin: China
- Brand Name: Huarui
- Certification: patent : national testing report; quality management system
- Model Number: to be customized
- Minimum Order Quantity: 1
- Price: to be negotiated
- Packaging Details: water proof
- Delivery Time: 30~45 days
- Payment Terms: T/T; L/C
- Supply Ability: 1000000 sets

#### Product Specification

- Safety: Complete And Reliable
- Melting Speed: Quick
- Failure: Low
- Maintenance: Low
- Durability: High
- Noise: Low
- Advantage: High Power Saving
- Highlight: **Low Failure Steel Metal Furnace,  
Power Saving Steel Metal Furnace**

## Product Description

### Product Description:

Steel Melting Furnace is an induction melting furnace used for steel melting. It is characterized by low noise, high durability, low failure rate, complete and reliable safety, and low maintenance. This steel melting furnace is an ideal choice for metal smelting and casting industry. It can provide fast and accurate melting of steel, while ensuring a low operating cost. In addition, its advanced and reliable control system allows users to easily adjust the output of the furnace, and maintain the desired temperature. With its superior performance and low failure rate, the Steel Melting Furnace is the perfect choice for those who need a reliable and efficient induction melting furnace for steel.

### Features:

**Product Name:** Steel Melting Furnace

**Failure:** Low

**Advantage:** High Power Saving

**Maintenance:** Low

**Durability:** High

**Melting Speed:** Quick

**Keywords:** melting furnace for steel, steel melting furnace, induction melting furnace for steel

### Technical Parameters:

Aluminum Shell Induction melting furnace power supply, thyristor type serial-connected resonance medium frequency type, (4 tons), as for other data of other capacity (tons), please check other pages in our this website.

Characteristic	Description
Type	GW4.0-3000-0.3S
Rated capacity (T)	4.0
Rated power (KW)	3000
rated frequency (HZ)	300
power supply (V)	575x2
inlet current (A)	1500x2
medium frequency voltage (V)	2800
load type	One power supply cabinet drives two induction furnaces
adapted transformer (KVA)	3150

### Applications:

The **Huarui Steel Melting Furnace** is a reliable and durable induction furnace designed for steel melting. Its high power saving advantage, low noise, and quick melting speed make it a popular choice for steel foundries and industrial applications. It is certified with a patent, national testing report, and quality management system, ensuring its safety and complete reliability. With a minimum order quantity of 1 and prices to be negotiated, the Huarui Steel Melting Furnace is a great choice for many customers. It is packaged with water proof materials and delivery times range from 30 to 45 days. Payment terms are available in T/T or L/C and its supply ability is 1000000 sets.

### Customization:

Steel Melting Furnace – Huarui

Huarui offers customized steel melting furnace services with the following advantages:

High power saving

High durability

Low noise  
Quick melting speed  
Low maintenance  
Brand Name: Huarui  
Model Number: to be customized  
Place of Origin: China  
Certification: patent : national testing report; quality management system  
Minimum Order Quantity: 1  
Price: to be negotiated  
Packaging Details: water proof  
Delivery Time: 30~45 days  
Payment Terms: T/T; L/C  
Supply Ability: 1000000 sets  
Keywords: steel induction melting furnace, steel melting furnace, induction melting furnace for steel

## Support and Services:

### Steel Melting Furnace Technical Support and Service

We provide technical support and service to our customers for our Steel Melting Furnace and its associated equipment. Our team of experienced professionals is available 24/7 to provide prompt and efficient support and advice.

We provide a range of services, including:

Troubleshooting and diagnosis of any issues.

Advice on maintenance and repair of Steel Melting Furnace and associated equipment.

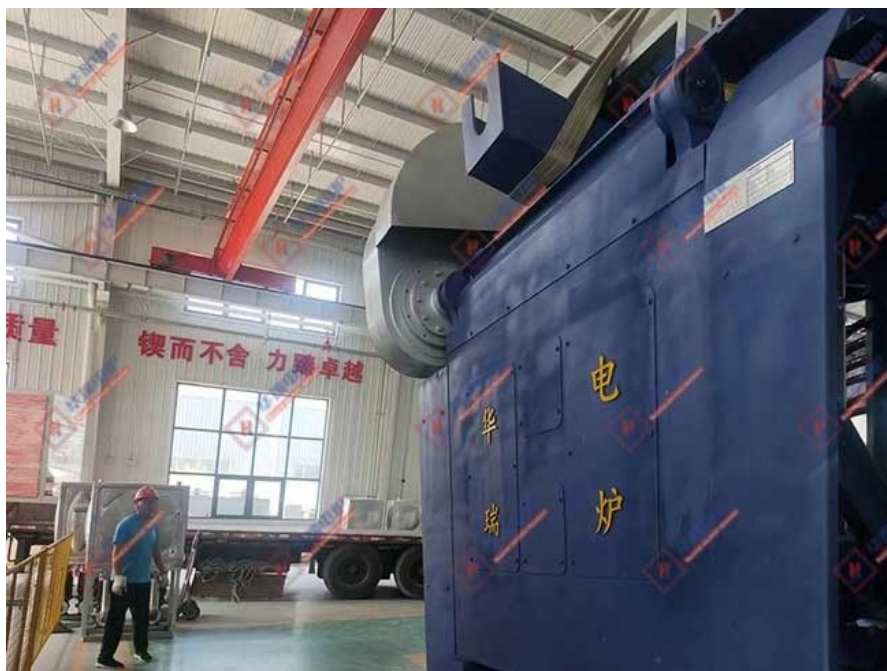

Installation and commissioning of Steel Melting Furnace.

Replacement parts and spares.

On-site support.

Remote support and monitoring.

We also offer a range of preventative maintenance packages to ensure the optimum performance and longevity of your Steel Melting Furnace.
