

High Reliability Medium Frequency Electric Melting Furnace For Metal Industry

Our Product Introduction

for more products please visit us on melt-furnaces.com

Basic Information

- Place of Origin: China
- Brand Name: Huarui
- Certification: patent; national test report; quality management system
- Model Number: to be customized
- Minimum Order Quantity: 1 set
- Price: to be negotiated
- Packaging Details: waterproof
- Delivery Time: 30~45 days
- Payment Terms: T/T; L/C
- Supply Ability: 1000000 sets/year

Product Specification

- Failure: Low
- China: Made
- Safety: High
- Maintenance: Low
- Melting Time: Quick
- Power Consumption: Low
- Durability: High
- Power Saving: High
- Highlight: **Metal Industry Electric Melting Furnace,
Medium Frequency Furnace For Iron Melting,
Metal Electric Melting Furnace**

Product Description

Product Description:

Iron Melting Furnace is a Medium Frequency electric melting furnace that is made in China. It is designed to have high safety, low failure, low maintenance and high power saving. It is an ideal choice for industrial metal melting with its superior performance and excellent melting efficiency. It is simple to operate and has a long service life. It can save energy, time and cost, and the furnace is highly reliable with its superior quality and advanced technology. The furnace is designed to meet the highest safety standards and is also easy to maintain with its low maintenance requirements. It is an ideal choice for industrial metal melting with its superior performance and excellent melting efficiency.

Features:

Product Name: Iron Melting Furnace
Maintenance: Low
Durability: High
Safety: High
Melting Time: Quick
Power Consumption: Low
Technology: Medium Frequency Electric Melting Furnace

Technical Parameters:

Induction melting furnace power supply, thyristor type serial-connected resonance medium frequency type, (15 tons), as for other data of other capacity (tons), please check other pages in our this website.

Characteristic	Description
Type	GW15-9000-0.3S
Rated capacity (T)	15
Rated power (KW)	9000
rated frequency (HZ)	300
power supply (V)	950x4
inlet current (A)	1361x4
medium frequency voltage (V)	2800
load type	One power supply cabinet drives two induction furnaces
adapted transformer (KVA)	10000

Support and Services:

Applications:

Huarui Medium Frequency electric melting furnace offers a reliable, safe, durable and power saving performance with low failure rate. It is made in China and can be customized according to your requirements. This product is certified with patent, national test report and quality management system and has minimum order quantity of 1 set. The price is to be negotiated while the packaging is made waterproof. After the order is placed, the delivery time is 30~45 days. The payment term can be either T/T or L/C and the supply ability is up to 1000000 sets/year.

At **Iron Melting Furnace**, we are committed to providing excellent technical support and services to our customers. Our technical support team is available to answer any questions you may have about our products and services. Our team of experts can help you troubleshoot any problems you may be experiencing with your furnace. We also provide regular maintenance and repair services to keep your furnace running at its best. We strive to provide you with the best customer service experience possible.

Packing and Shipping:

Packaging and Shipping

Iron Melting Furnace will be securely packaged in wooden crates to prevent any damage during transit. The crates will be palletized and stretch-wrapped for added security. The crates will be labeled with the product's information and shipment details. The shipment will be insured against any losses or damages.
